(Regarding Internal Assessment)

In accordance with the discussion with IQAC and HOD's of different departments, It is decided that the format of internal evaluation will consist of assignments and presentation along with the attendance of students.

However, considering the difficulties, the faculties face in this regard because of the non – serious attitude of the students, It has been decided to prepare a schedule of internal assessment according to the Academic Calendar . Thus, the faculties are suggested to inform the students in advance and assign the topic, 25 days before the given schedule so that the students submit their assignments in the allotted time. The teachers evaluate the assignments, sort out the students with poor performances, take their remedial classes in future. The faculties are requested that no students should be entertained before or beyond the aforesaid dates. However, a student with a genuine reason can be given a second chance accordingly.
